

AutoCharge

**Never key standard charges line by line
to a Service Call Invoice again**

Use AutoCharge to calculate a percentage discount for a specific cost category or across them all. No matter the charge or cost you want to add, AutoCharge's user-friendly setup makes it easy to get started. AutoCharge remembers additional charges for your customers so you don't have to!

Auto Charge provides:

a simple and convenient way to automatically add labor, discounts and other costs to service invoices based on your unique rules.
