SelectCostTransfer

Overcome posting mistakes! SCT helps you move the transactions to the correct service call or job and send appropriate transactions to General Ledger.

POSTING COSTS TO THE WRONG SERVICE CALL IS AN EASY MISTAKE TO MAKE. NOT SO EASY?... FIXING IT.

- **Overcome the common error of posting costs to the wrong service call**

- **Eliminates rekeying the adjusting/reversing transactions**

- **Select only the posted costs you want to transfer**

- **Select the costs to transfer to a job and which cost element type and cost code should be moved**

- **Transfer costs to another service call with a different division and/or call type**

- **View a history of transfered transactions**
